- [Cadia Job Qualifications](#)
- [Telfer Job Qualifications](#)

Overview

Use this guide to view the qualifications that need to be attached to a contractor's profile in order to activate the preferred job role for shutdown positions. The qualifications vary depending on the site.

- Highlighted cells indicate the set of qualifications that are required to activate the preferred job role in the Contractor Profile.
- Cells that are not highlighted require just one of the qualifications in order to activate the preferred job role.
